PROFILE

Third-year B.Tech Computer Science & Engineering student with a current CGPA of 8.6, focused on backend development, data structures, APIs and secure application development. Hands-on experience building REST-based web projects and an end-to-end encrypted real-time chat application. Seeking an internship or entry-level opportunity where I can contribute to practical software projects and strengthen my engineering skills.

EDUCATION

B.Tech in Computer Science & Engineering
[College / University Name]

Current CGPA: 8.6
Third Year

Relevant Coursework: Data Structures & Algorithms Object-Oriented Programming Operating Systems DBMS
Computer Networks

PROJECTS

Portfolio Website with Custom CMS

Java Spring Boot REST API PostgreSQL HTML CSS

Built a full-stack portfolio platform with a Spring Boot REST API and an admin panel to manage portfolio content.

Designed PostgreSQL schema and CRUD endpoints so content can be updated without changing front-end code.

Structured the work around backend development, admin UI and deployment-ready architecture.

End-to-End Encrypted Real-Time Chat Application

Python WebSockets Sockets RSA AES

Developed a real-time multi-client chat system where messages are encrypted before transmission and decrypted only by the receiver.

Implemented RSA-based key exchange and AES-based message encryption to understand practical cryptography concepts.

Built the backend using Python sockets and WebSockets for low-latency communication.

TECHNICAL SKILLS

Languages Python, Java

Web & APIs HTML5, CSS3, REST APIs, WebSockets

Frameworks & Databases Spring Boot, PostgreSQL

Core CS Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks, Cryptography Basics

Tools Git, GitHub, VS Code, macOS

CAREER FOCUS

Backend Development Python / Java Secure & Real-Time Applications Problem Solving Software Engineering
